□

Look, Listen & Learn has set the standard for contemporary brass and woodwind teaching. These exciting method book packs for beginners engage students and develop their understanding of music and their instrument through songs, puzzles, games and lots of fun pieces to play. Three progressive method books form the basis of the series, enhanced by several corresponding supplementary volumes.

Some of the most beautiful melodies from the world of music theatre over the last several decades are collected together in *Play Musicals*. They have been arranged in increasing order of difficulty in such a way that they can be used in conjunction with all three volumes of *Look, Listen & Learn*. Students can also play along to the provided accompaniment tracks which are available to download or stream.
