□

Enhance your warm-up and develop stellar intonation with this thoughtful set of 10 intonation studies and chorales. Designed to help students hear harmony in a logical and progressive way, exercises include harmonizing scales to open strings, the use of open string drones during chorales, studies in various keys, attention to bow distribution, and much more. Complete with an extensive discussion featuring practical uses for each study and suggested combinations throughout the year. A fabulous resource for all string orchestras, including honor orchestras!
